MONDAY LYENING, NOVEMBER 24. A POWERFUL MAGNET -A novel application of electricity for power purposes in blast

furnace work was exhibited recently in Pittsburg, and was notable chiefly for the ex reme simplicity of the principle involved. The apparatus was nothing more than a powerful electro-magnet, designed for lifting the pigs of iron from the bed of sand in which they are cast from the furnace. The magnet somewhat resembled a bell in shape, measuring about 20 inches in height and about 24 inches across the bottom. The lifting capacity was rated at 7200 pounds, or three gross tous. The magnet was attached to a crane by which it could be lowered to the pig bed, raised with i s load and trans-ported about the cast-house. The function of the magnet was merely to do away with alings or grapples for lifting the pig iron and to obviate the necessity of handling the pigs by hand. So far as the rapidity and ease with which a load could be attached cr released are concerned, this idea certainly resents a means of conomy. Its practical value, however, awaits demonstration.

HYPODERMIC BLUSH,-The "hypodermic blush" is the latest new weapon that has been anded in the United States to the armory of the fair sex. The immediate effects are suld to be ravishing and to impart a surpassing beauty. Never were the gentler emotions of the human heart so gracefully displayed, though it is only "coloring matter inserted beneath the skin with the point of a syrings." The after results are not so satisfactory. The beauty-spot becomes a greenof in it bear a permanent scar; but while it is as the attraction is described as irrestible, and it lasts two hours. This is time enough for almost anything—certainly for a STATIONERS' ARTICLE. ich yellow, and if the experiment is persistd claration of love. But this is only oneuses to which the hypodermic blush may be applied .- London Illustrated News.

HOUSEHOLD FAVORITE.

A young girl here had been suffering for 12 years with blood diseases until she had lost the use of her limbs and was subject to many troubles incident to the disease. The physicians declared her case incurable and predicted that her life would come to a speedy end. After taking S. S. S. she recuperated so fast that it was plain that she had obtained a new lease on life, and she has continued to grow better until her permanent cure is assured. Many other patients in our hospital have obtained signal benefit from S. S. S., and it has become quite a favorite in our house.
